

ENGAGE. EDUCATE. EMPOWER.

Parent/Guardians,

North Newton School Corporation has an exciting opportunity to learn from home and not be required to make up any future weather-related closings, which will allow students/teachers to continue with current skill sets. The Indiana Department of Education approved this eLearning opportunity to use if needed, for inclement weather missed days of school. We want to ensure that we are educating all of our students in real-time content instead of doing paper packets.

If the school day would be canceled or severe weather is forecast and an eLearning day used, all North Newton School Corporation students will participate in an eLearning format. Students K-12 will be instructed to take home their iPad. However, for this program to be successful, we need your help. **Please be sure that iPads are properly cared for while in your home and be sure that iPads are returned to school with your student on the next school day fully charged.** Because of several factors, not every canceled school day may result in being an eLearning day.

We know this is different than a traditional day of school, but we believe we can use eLearning days to allow us to continue offering each of our student's a positive learning experience, even when we are unable to transport them to school. Teachers are available from 9:00 a.m.-5:00 p.m. on each eLearning day.

We appreciate your cooperation and support and share in your students educational success. If you have any questions about this, feel free to call your child's building principal.

Sincerely,

Destin Haas, Superintendent of Schools
